

# North Woods Construction Ltd

## Approaching from Inverness

Arrive Leckmelm about 3 miles before Ullapool on A835.

Keep on main road right through Leckmelm passing holiday cabins on right, farm below on left and some sharp bends amongst tall trees.

Come out of bends onto a long straight with Leckmelm Gardens immediately on your left followed by a lay-by.

North Woods turning is just past this first lay-by on the right. It is completely unmarked and has a bumpy entrance but turns into a straight and steep concrete drive. (You have missed it if you pass another lay-by).

Turn right into yard at top of concrete drive where there are several timber sheds.

Drive through yard (now heading back east) on track and after another 20 metres swing sharp left uphill and onto another level of buildings including large new workshop.

## Approaching from Ullapool

About 3 miles out of Ullapool heading to Inverness on A835 watch out for huge electronic gantry road sign on long straight. Ignore turning immediately under this but take next left about 200 metres beyond this and 100 metres after the Leckmelm sign. It is an unmarked turning. Turn right into yard at top of concrete drive where there are several timber sheds.

Drive through yard on track and after another 20 metres swing sharp left uphill and onto another level of buildings including large new workshop.
